WINDOWS

QUALITY | VALUE | CHOICE

These words are the three pillars that underpin the service we provide to our customers. Everything we do is motivated by these three - from manufacture right through to installation.

Welcome to your new look home

We are the first choice for customers throughout the area. Our reputation for quality, service and price means that much of our work comes from recommendations.

Congratulations! You have made the first step in buying new windows, doors or a conservatory for your home. And what a difference they will make to you and your family... improved security, reduced energy bills, less noise and virtually no maintenance – not forgetting the visual impact! These are just a few of the ways you will benefit from our products.

With our energy efficient windows, your home will be a 'greener' home too – by reducing the amount of energy you use to heat your home, our windows will help you to reduce the amount of greenhouse gases you produce.

Our products will enhance your home and your lifestyle. With windows, doors and conservatories in a vast array of styles and colours – you have the opportunity to perfectly tailor them to your needs and requirements.

Choose your frame...

We have a choice of two VEKA window profile styles for you to choose from, bevelled and sculptured profiles. Both offer superb security features, high energy efficiency and an attractive hand crafted finish. Available in a range of colours and finishes and a selection of colour matched handles, letterplates, numerals, knockers and spyholes - you can tailor your frames to match your home perfectly - whatever the period.

Bevelled

Angular lines give bevelled windows a clean, modern look.

Sculptured

Sculptured windows are distinguished by softer, rounded lines.

Key features

We have taken the time to choose the best profile available on the market. Our profiles meet and exceed latest industry standards, giving you the peace of mind to know that you are buying quality - BSI approved quality. In addition to that we add a 10 year, no questions asked guarantee.

- Choice of angular (bevelled) or rounded (sculptured) frames
- Range of energy ratings available from A - C
- The 1st ever A-rated window was made from VEKA profile
- Wide choice of colours and woodgrain finishes available
- Internally glazed for enhanced security
- 70mm profile, direct replacement for timber or 1st generation PVC-U

Pick a colour

All of the beautiful flush finish products in this brochure are available in 14 colours and woodgrain options, allowing you to perfectly complement your home. Keep it classic with cool cream or white, for contemporary with grey or black, or reflect your personality with a considered choice from our green, blue and brown hues.

If you like the look of timber, but don't want the maintenance that comes with a wooden door, check out our extensive selection of woodgrain finishes - renowned as some of the industry's most realistic. We even offer a white woodgrain option for those wanting to add a textured woodgrain effect to the popular colour choice.

Your installer can help advise you on the perfect, stylish finish for your doors and windows - but ultimately the choice is yours! Make your home as unique as you are.

You choose the colour and we will match it!
We have a vast range of colour finishes available.
Please ask one of our team for more information.

Additional features

If you are looking to add the finishing touch to your windows, why not consider run-through horns on our vertical slider windows. Or why not add Georgian bars for an authentic period look.

Run Through Horns

Are you living in a Green House?

Old windows, doors and conservatories are responsible for a significant proportion of wasted energy in homes across the UK

...but we have the answer!

It's easy to be green...

People today are far more aware of the methods and means of reducing their impact on the environment when compared to just a few years ago. This in tandem with ever increasing energy prices has led homeowners to make improvements to their properties which benefit the environment. Loft and cavity wall insulation, solar panels and energy efficient windows and doors are the main areas of 'green' investment.

When you look at the infra-red images below, it is easy to see why more and more people are choosing to replace timber and even 1st generation PVC-U windows with the more energy efficient frames that are available today. It's such a simple way to save money and do your bit for the planet too.

The warmest areas seen here in red show where heat is being lost from the building.

Red areas have been eliminated after fitting energy efficient VEKA windows.

Our products give you...

Smaller energy bills

Replacing all single-glazed windows with A-rated double glazing could save you £££'s each year on your energy bills

A smaller carbon footprint

By using less fuel, you'll generate less of the carbon dioxide that leads to global warming - typically, 680kg a year.

A more comfortable home

Energy-efficient glazing reduces heat loss through windows and means fewer draughts and cold spots.

Peace and quiet

As well as keeping the heat in, new energy efficient windows insulate your home against outside noise.

Reduced condensation

Energy-efficient glazing reduces condensation build-up on the inside of windows.

Nothing but the best energy rated frames...

We have dedicated significant time and money in developing a range of energy efficient products, all of which are capable of achieving the highest Window Energy Rating (WER) values. The WER system allows consumers to make fair comparisons (based on energy efficiency) between different windows, much the same as with white goods such as washing machines and dishwashers.

PLUS they're low, low maintenance

Life is too short to be sanding and painting rotten old timber window frames - and even the old discoloured PVC frames need more care and attention than they used to. With our next generation PVC-U frames, all you need is a quick wipe with a warm soapy cloth. No fuss, no mess. Done!

Specification

Our windows can deliver a window energy rating of 85%

Casement Windows

Casements are the most popular and versatile style of window that we offer. A casement is identified by the opening part of the window opening outwards.

The number of arrangements and combinations of fixed and opening frames is endless - it really does come down to what you want and how you intend to use the adjacent room.

Select your finish and hardware from a range of beautifully crafted locking handles, and that's it - we do the rest. Our casement windows deliver the complete solution for any property from period to contemporary.

Vertical Sliders

Crafted with attention to detail, our Vertical Slider windows (also known as sash windows) combine the functional benefits and performance of a modern PVC-U window with the feel, aesthetic appeal and operational simplicity of a traditional style window.

Our Vertical Slider windows have a timeless elegance made with beautiful proportions and symmetry. They have the true looks of the original timber sash window retaining all of the character of the property itself.

The modern Vertical Slider not only emulates the aesthetics of its' traditional timber equivalent, but also offer additional benefits such as the easy maintenance of PVC-U. We also offer the option of run-through sash horns for a truly authentic look.

(Ask us for more details)

Tilt and Turn

Tilt & Turn windows provide the ideal solution for locations where window safety and window access may be an issue. The unique concealed hardware design means that the window can be set in one of two positions, either tilted or fully opening inwards

As a result of the unique properties of the tilt & turn window, they are ideal for apartments or flats, from the ground floor up, allowing for ventilation and easy cleaning from within the property.

Tilt

TILTED POSITION

This position allows a window to tilt open inwards, providing good ventilation, but without compromising safety.

Turn

TURNT POSITION

The whole sash opens out into the room allowing for easy cleaning or maintenance.

Bays and Bows

Bay and bow windows not only add distinction and character to a house - they add space too.

The 'arc' of the bow window offers a larger internal window ledge area and the Bay actually extends the footprint of the room it fronts. Either way - the additional space and light, combined with the high visual impact make both styles of window an extremely popular choice.

Residential Doors

Residential doors are the perfect choice for both front and back doors. We stock a wide variety of decorative PVC-U door panels and glass units for you to create a truly unique entrance to your home. Side panels, aluminium low thresholds (Part 'M' compliant) and midrail letterplates are all options available on the residential door - as too is our exclusive range of coloured hardware.

Patio Doors

The classic Patio Door offers a number of benefits, with extra light and a feeling of space in your home being the most notable. As a result of this, patio doors are well suited to many around-the-home applications.

Our low threshold doors create a seamless access point from house to garden, giving you a greater sense of space – perfect for a summer BBQ or winter party.

A patio door with a midrail allows for the installation of a letter plate – ideal for porch applications. All our patios come with superior security fittings (Anti jacking system, 4 point hook lock and reinforced frames), yet despite these features, the easy-glide doors carry slim sightlines allowing you to see less frame and more garden.

French Doors

French Doors extend your home, bringing extra light and the illusion of more space. They create an attractive opening to a garden or patio with minimal obstruction.

As a homeowner you will be able to enjoy a better view of the outdoors all year round. French Doors are also ideal for partition wall applications - from a kitchen to a conservatory area for example.

Available in a range of coloured and woodgrain finishes to perfectly complement your home.

Bi-Folding Doors

The bi-folding door meets the demands of contemporary living and combines this with beauty and practical functionality.

These aesthetically pleasing door panels are configured into a number of concertina folds that can be pulled back to offer optimum versatility, light and access into any room.

Where an opening or partition is required between rooms, whether a small or large room, or where your home leads onto a patio or outside area and you want to extend your view of the garden, the bi-fold door is ideal for these applications. Bi-fold doors create synergy between rooms of all shapes and sizes to seamlessly connect your living space whether indoors or outdoors. The doors can be hung inside or outside of your home.

Choose your style

These are just a few of the potential style variations available. If you can't see the style you are looking for, ask us for further options.

Composite Doors

Our collection of composite doors are designed with meticulous attention to detail and finished to the highest possible standard. Your front door is a symbol of your home, your family and your life. It's as individual as you are. It says a lot about you. Which is why it's so important that when you choose a new door, it has to be exactly right. Not just nearly right. After all, it's going to be with you for years to come.

Secure, stylish and energy efficient

Performance

Our doors meet the requirements of the most stringent and recognised British security and safety standards. Our doors pass the PAS24 security standard, which measures resistance against forced mechanical and human entry. Our doors also pass the latest PAS23 standard, a measurement of resistance to air and water penetration, at the highest level.

High Security Performance Hardware

Doors are fitted with high security, multi-point door locks and adjustable flag hinges as standard. All conform to the Secured by Design official Police security initiative. The Secured By Design standard is recognised by the Association of British Insurers.

A new composite door will keep you, your family and your possessions safe and sound. It will keep out the cold and wet, yet keep in the warmth. Get ready to adore your door from the moment it arrives.

Secured by Design

Official Police Security Initiative

Steel reinforced 70mm PVC-U outerframe extruded to BS7413 specifications

Thermoset GRP skin, with natural woodgrain effect. Low maintenance.
Strong colour fastness UV tested to withstand strong sunlight, less prone to fading

68mm thick door slab - better thermal and acoustic properties than thinner door slabs

Environmentally friendly high density, CFC-free, polyurethane foam core.

Substrate individually made to measure
PVCu steel reinforcement

Door Furniture

Add the finishing touches to your door by choosing from a complete range of matching quality door handles, letterplates, urn knockers, spyholes, security chain and numerals in gold, chrome, black or white effect finish.

Threshold

Optional aluminium low thresholds are available at 15mm (Part 'M Compliant) for easier wheel-chair/pram access or 30mm heights.

UV Stable Tested

Doors are tested to withstand extreme sunlight conditions and are UV stability guaranteed to 10 years.

Our composite doors are available in both bevelled and sculptured outerframes - perfectly matching the other windows and doors in your home.

Timber free construction offers greater rigidity and reduces the risk of twisting, swelling, bowing or rotting.

ENVIRONMENTAL CONSIDERATIONS

Our products are environmentally-friendly.

We use CFC free polyurethane foam for the inner core and a timber free construction throughout. Manufactured under ISO 14001 Environmental Management System licence. All extruded components are sourced in the UK.

Conservatories

Adding a conservatory to your home will enhance your lifestyle, by allowing you to make the most of the outside with all of the comforts of the inside. A conservatory will create more living space, and allow you to enjoy the benefit of natural light. As well as enhancing the appearance of your home, it will significantly improve the value too.

Make a statement with a conservatory that gives an air of luxury that you can enjoy all year round.
